The Honorable William H. Webster
Director of Central Intelligence
Central Intelligence Agency
Washington, D.C. 20505

Dear Judge Webster:

As you may know, Air/Space America 88 will take place on May 13-22, 1988 at San Diego's Brown Field. This international air show is being organized by former Representative Bob Wilson. We would like to invite you and your spouse to San Diego for the opening of Air/Space America 88 on May 13.

Air/Space America 88 will be the largest international space and electronics trade exposition ever held on American soil. "Sea Power" magazine said that the Air/Space America 88 is shaping up to be stiff competition for the Paris and Farnborough air shows. Even now, Air/Space America 88 has over 500 exhibitors. General Dynamics, Hughes Aircraft, Teledyne Inc., TRW, Bell Helicopter, Gates Learjet, and other manufacturers will be displaying a wide array of defense, electronic, and aviation products. There will also be space exhibits, stunt flying, and air races, not to mention the beautiful San Diego location.

Air/Space America 88 will afford you an opportunity to see the Chinese Long March Carrier Rocket, the Soviet An-124 giant air transport plane, new air traffic systems, state-of-the-art Avionics, fiber optic products, alloy metal and composite plastic manufacturing techniques, and aerospace tracking and navigation computers and software.

We hope that you can help this "Made in America" air show become a resounding success. We have enclosed a brochure that details Air/Space America 88. Please R.S.V.P. to Ray Sullivan at 225-5672.

Sincerely,

Duncan Hunter
Member of Congress

Bill Lowery

Name of Firm _____

AIRCRAFT TO BE EXHIBITED				
Description of aircraft to be exhibited	Expected landing weight (in pounds)	Length (in feet)	Wingspan (in feet)	Landing gear configuration

PRODUCTS TO BE EXHIBITED			

GENERAL CONDITIONS

1. Contract
This application, properly executed by Applicant (Exhibitor), shall upon written acception and notification of exhibit space assignments by Air/Space America (A/SA) management constitute a valid and binding contract.

2. Assignment of Space
Assignment of space will be made on a first-come, first-served basis by order of postmark date.

A/SA's assignment of exhibit space is final and shall constitute an acceptance of an Exhibitor's offer to occupy space. After assignment, space location may not be changed, transferred, or cancelled except upon written request and with the subsequent written approval of A/SA management.

Space assignments may be revoked or changed by A/SA management at any time that the minimum payment schedule is not met.

3. Payment Requirements and Cancellation Charges (Revised)

Amount	Due
50% of total space price	With application
Balance of total space price	March 15, 1988

In the event of a cancellation by an exhibitor, an assessment to cover services performed and other damages relating to the cancellation shall be as follows:

Cancellation charges as of:

February 1, 1988	50% of total space price
April 1, 1988	100% of total space price

It is understood that A/SA reserves the right, at its option, to re-assign cancelled exhibit space regardless of the cancellation rate assessed. Subsequent re-assignment of cancelled space does not relieve the cancelling exhibitor of his obligation to pay the amount referred to above.

In the event that the premises in which Air/Space America is conducted shall become, at the sole discretion of A/SA management, unfit for occupancy, or substantially interfered with by reason of any cause or causes not reasonably within the control of A/SA, this agreement may be terminated by A/SA. For this purpose, the term "cause or causes" shall include, but not by way of limitation, fire, flood, epidemic, earthquake, explosion or accident, blockade, embargo, inclement weather; governmental restraints; restraints or orders of civil defense or military authorities; act of public enemy; riot or civil disturbance; strike, lockout, boycott or other labor disturbance; inability to secure sufficient labor, technical, or other personnel; failure, impairment, or lack of adequate transportation facilities; inability to obtain or condemnation, requisition or commandeering of necessary supplies or equipment; local, state, or federal law, ordinance, rule, order decree, or regulation, whether legislative, executive, or judicial; and whether constitutional or act of God. Should A/SA terminate this agreement pursuant to the provisions of this paragraph, the Exhibitor waives any and all claims for damages and agrees that A/SA may, after computing the total amount refundable to all exhibitors (the amount by which the total amount of fees paid by all exhibitors exceeds the total amount of A/SA's costs and expenses in connection with its preparation and conducting of Air/Space America, including a reasonable reserve for claims and other contingencies), refund to the Exhibitor, as and for complete settlement and discharge of all said Exhibitor's claims and demands, an amount which bears the same relationship to the fee paid by said Exhibitor as the total refundable amount as computed above bears to the total amount of fees paid by all exhibitors.

All prices subject to change upon 30 days notice.

4. Prices
All prices are in United States dollars ($US).

5. Compliance
The Exhibitor assumes all responsibility for compliance with all pertinent ordinances, regulations, and codes of duly authorized national and local governing bodies concerning fire, safety, and health, together of the operators and/or owners of the property wherein Air/Space America is held.

6. Liabilities
Neither Air/Space America, its Flight Control Committee, the U.S. Federal Aviation Administration, nor the City or County of San Diego will accept liability for the loss of or damage to any exhibits, aircraft, or any other equipment against such loss or damage, including the risk of theft, fire, storm, earthquake, flood, acts of God, or aircraft mishaps.

Exhibitors and their employees, contractors, and/or agents participate in Air/Space America at their own risk.

Air/Space America will not be under any liability to exhibitors or their employees, contractors, and/or agents for any direct or indirect damage, loss, death, or injury arising out of or in any way connected with the exhibits, aircraft static displays, customer demonstration flights, flying displays, or any other aspect of Air/Space America. Exhibitors, by the fact of their participation, agree to indemnify Air/Space America against all claims arising out of, or in any way connected with, exhibitors' participation.

7. Alterations
Air/Space America reserves the right to make any necessary alterations in the position and size of exhibit pavilions, chalets, outdoor displays, and static aircraft displays. Exhibitors will be informed of these changes should they occur.

8. Flight Control
Control of all flight activity will be exercised by the Flight Committee, headed by Air/Space America's Director of Operations working in conjunction with the U.S. Federal Aviation Administration and the supervisor of Brown Field.

9. Regulations
Exhibitors and other participants in Air/Space America will be bound by the regulations set forth in "Exposition Regulations."

10. Applicable Law
Any dispute(s) between exhibitors shall be resolved by Air/Space America and the decision will be final. Disputes between exhibitor(s) and Air/Space America will be subject to interpretation according to the laws of the City and County of San Diego and the State of California.

11. Re-assignment of Space
Exhibitors may not tranfer, assign, sub-let, or share exhibit space with any other exhibitor, company, or individual without the prior written agreement of Air/Space America.

12. Unions
Exhibitors and other participants in Air/Space America will abide by and comply with rules and regulations concerning local unions having agreements with authorized contractors employed by Air/Space America.

EXHIBIT SPACE COSTS

INDOOR SPACE

Maximum height for booths around the perimeter of each pavilion is eight-feet. Standard height for all other booths is 12-feet. (Special permission must be secured to exceed this 12-foot height.) Nothing can be suspended from the ceiling framework.

Costs

Standard Booth Space
(10′ × 10′ / 100 sf - 9.3 sm)
Any number may be purchased.
Each ..... $2,200.

Island Exhibit Space
Available in 10′ × 10′ units. Any number may be purchased and must form (in combination) either a square or rectangle. Compute costs by square foot.
Cost per square foot ..... $25.

Premium Corner Booth Space
(10′ × 15′ / 150 sf - 13.95 sm) May be purchased alone or in combination with any number of adjacent 10′ × 10′ booths.
Each ..... $3,500.

OUTDOOR EXHIBITS

Space for free-standing exhibits (not aircraft).
Minimum space per exhibit is 200-square-feet (18.6 sm).
Per square foot ..... $12.

STATIC AIRCRAFT DISPLAYS

Exhibitors who have aircraft on static display may also participate in flight-display activities at no additional charge, providing they have two aircraft of the same type—one for static display and one for flying display and/or customer demonstration flights.

Aircraft empty weight	Per aircraft
Up to one ton	$ 350.
One ton to three tons	750.
Three to 10 tons	1,200.
10 tons to 25 tons	1,800.
25 tons to 40 tons	2,400.
40 tons to 60 tons	3,200.
Over 60 tons	4,000.

AIR/SPACE AMERICA . . . WHERE YOU MEET QUALIFIED CIVILIAN AND MILITARY BUYERS FROM THROUGHOUT THE WORLD

AIR/SPACE AMERICA, the first international aerospace and electronic trade exposition of this magnitude ever presented in the United States, will be held in San Diego, California, in May 1988. It will be attended by uniquely powerful and qualified purchasers of aerospace and electronic equipment, supplies, research, and related services.

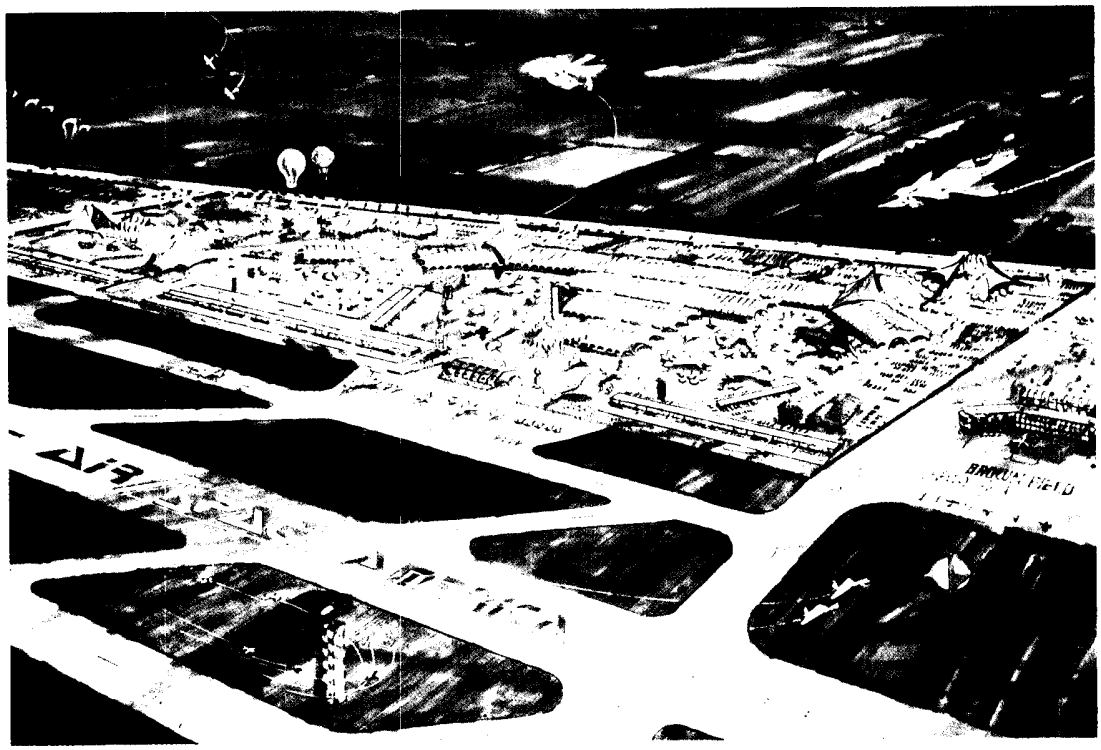
Intensive, carefully-targeted advertising and public relations programs will encourage the attendance and participation of these domestic and international buyers.

The ten day exposition will have a press day, five days reserved for the trade, and four days (two weekends) open to the public. Featured will be air shows and races, flight demonstrations, seminars, static and flying displays, indoor and outdoor exhibits, and exhibitors' reception chalets. While many U.S. military aircraft never before exhibited publicly will make demonstration flights and be on display, no exhibitor or country will be given preferential treatment.

> The United States continues to lead the world in developing and producing military and commercial aircraft. Air/Space America will showcase these contributions."
>
> **Senator Pete Wilson**

Air/Space America has additional attendance-building features that cannot be offered by any other trade exposition—the incomparable climate and varied attractions of San Diego and Southern California; plus the proximity of Air/Space America to exhibitors' plants, where visitors may be taken for tours, discussions, and demonstrations.

Plan now to be an exhibitor at Air/Space America and take advantage of the marketing opportunities offered by America's finest international aerospace and electronic trade exposition.



Air/Space America's 137-acre site at Brown Field, 17 miles south of downtown San Diego.

Sanitized Copy Approved for Release 2011/09/29 : CIA-RDP90M00005R000300130002-8

THE PROGRAM
May 13-22, 1988

It recently was announced that commencing in May, 1988, an international, biennial, high-technology exposition and air show will be held in San Diego . . . I can assure you that the Department of Defense will provide the maximum possible support . . ."

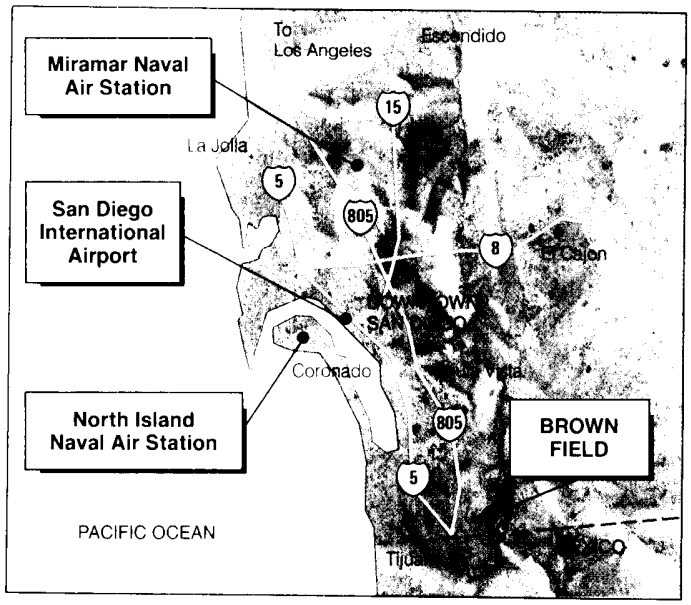
Caspar Weinberger, Secretary of Defense

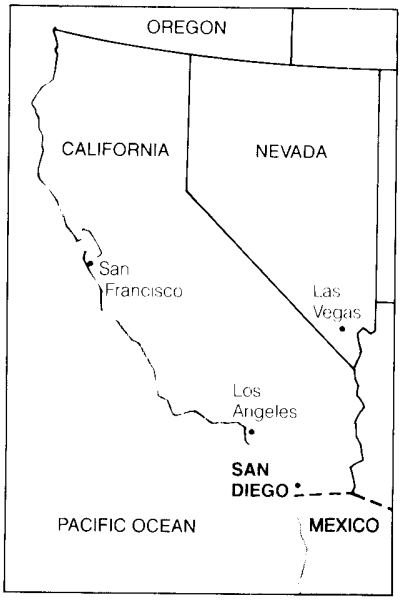
Air/Space America's exposition dates are scheduled in May in order to give exhibitors and visitors the very best of San Diego's always near-perfect climate (ideal for all flight activities), as well as freedom from summertime crowds.

Press Day
Friday, May 13
A day set aside for news media to preview Air/Space America and the first U.S. Airmada, a stirring fly-by of American-made aircraft.

Trade Days
May 16-20
The days reserved for you to meet new prospects and customers from around the world. Demonstration flights only.

Public Days
May 14-15 and 21-22 (weekends)
Air/Space America is open to the general public on these two weekends. Some 500,000 Southern Californians and others are expected to be on hand to see your exhibit and to witness air races and air show activities.





THE LOCATION

Air/Space America will be staged at Brown Field, a general aviation field owned and operated by the City of San Diego. The site is 17 miles south of downtown San Diego and the city's extensive port facilities and international airport (Lindbergh Field). Brown Field has an 8,000′ × 200′ paved runway, no scheduled commercial aviation, and is easily accessible by two major freeways and paved access roads.

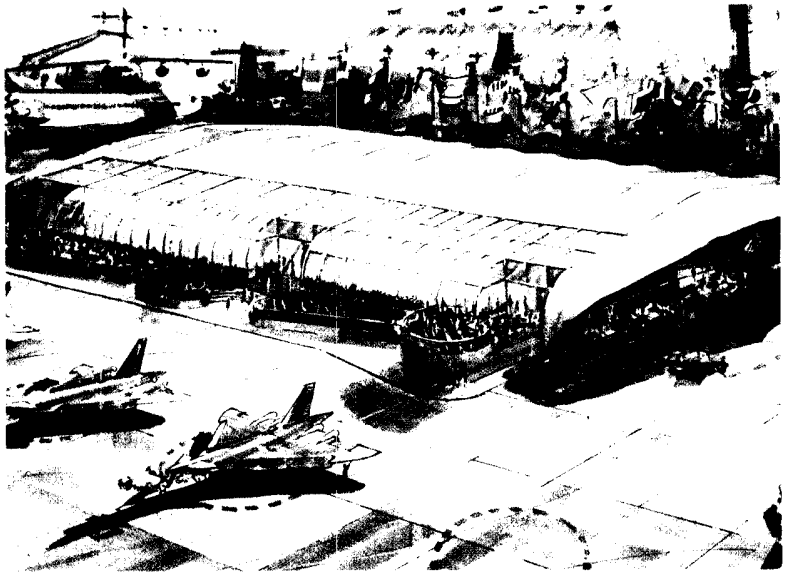
AIR/SPACE AMERICA BRINGS PURCHASING POWER TO YOUR EXHIBIT

TRADITIONALLY, expositions such as Air/Space America refer to commercial and military visitors as "trade" visitors. We prefer to think of them as your valued prospects and customers. The thrust of Air/Space America's promotional efforts is to bring these qualified buyers to see your exhibit and talk with your representatives.

Global advertising and publicity will bring these buyers to Air/Space America. Personal invitations will be extended worldwide to public officials; military officers; aviation, space, and electronic executives; and others who have direct involvement with the purchase of aerospace and electronic equipment, supplies, research, and services.

As an Air/Space America exhibitor you will receive an allocation of Trade Day admission tickets for your targeted potential buyers. The number of these free tickets will be based upon the extent of your firms' participation. You also will receive a supply of brochures and other information describing Air/Space America for use in promoting your exhibit to your customers and prospects.



The attractive pavilion where Air/Space America officers, directors, and members of the Founders' Club host visiting dignitaries.

PROMOTION TO ENSURE BUYER ATTENDANCE

An intensive advertising and public relations campaign, utilizing worldwide print and electronic news media as well as professional and general interest journals, will carry the Air/Space America story to the domestic and international markets for your products and services.

WHO WILL EXHIBIT

If yours is a product that is aviation or space oriented, you are eligible to exhibit at Air/Space America and to share in the benefits that come from having thousands of qualified buyers, from around the world, visit your exhibit.

To mention a few of the firms that already have indicated their intent to exhibit at Air/Space America (prior to having received this "Invitation to Exhibit") are those providing these products and services:

- Accelerometers
- Adhesives
- Airframes
- Antennas
- Audio Equipment
- Batteries
- Bearings
- Brakes
- Castings
- Components
- Computers
- Computer Graphics
- Computer Software
- Data Processing Equipment
- Electronic Sensors
- Engines
- Fiber Optics
- Flight Recorders
- Fuel
- Ground Support Equipment
- Guided Weapons
- Industrial Tools
- Instruments
- Leasing
- Power Supplies
- Navigation Aids
- Overhauls, Equipment
- Radar
- Telecommunications
- Test Equipment
- Training Devices
- Turbine, Discs
- Weapon Systems

In addition, exhibitors at Air/Space America will include members of the Aerospace Industries Association, the American Electronics Association, Air Transport Association, NASA, NBAA, HAI, and numerous other organizations involved in aerospace education, promotion, research, and development. Also scheduled to exhibit are regional, national, and international airlines and airfreight firms; other aerospace-related trade associations; and government and military agencies concerned with aviation and aerospace development and operation. The United States Department of Defense has offered maximum possible support.

> It's about time the U.S. puts its best foot forward with displays and demonstrations of our newest and best in aircraft and space vehicles. Air/Space America will do just that."
>
> **Senator Barry Goldwater**

EXHIBIT SPACE

INDOOR EXHIBITS

Indoor exhibits at Air/Space America will be housed in modern pavilions with an aggregate exhibit space of nearly 500,000 square feet. The 100-foot wide, clear-span, aluminum-frame structures have a maximum height (at center line) of 29-feet and are covered with fire-retardant white PVC material. Maximum height for booths around the perimeter of each pavilion is eight-feet. Standard height for all other booths is 12-feet. Special permission must be secured to exceed this height. Nothing can be suspended from the ceiling framework.

Pavilion flooring is asphalt, with 10 and 12-foot wide carpeted aisles. The asphalt flooring may, by special arrangement, be adapted to support heavy exhibit equipment. Food service, restrooms, and other facilities are located in and around the pavilions.

Standard Perimeter (wall) Booth Space

(10′ × 10′ / 100 sf - 9.3 sm) Any number may be purchased.

Each $2,200

Island Exhibit Space

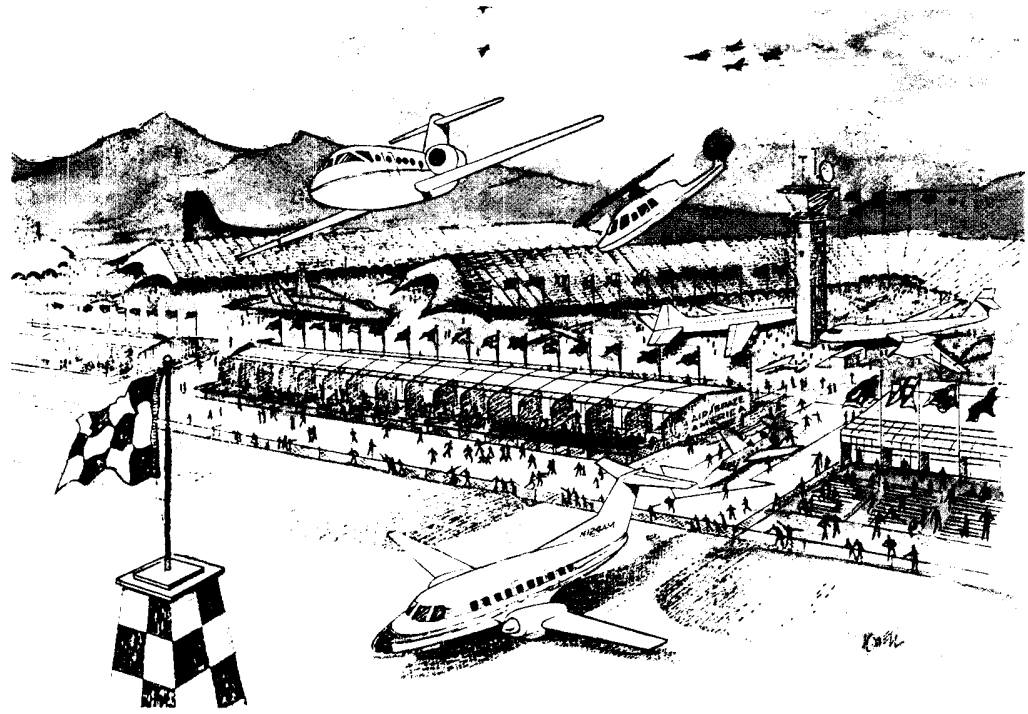
Available in 10′ × 10′ units. Any number may be purchased and must form (in combination) either a square or rectangle. Compute costs by square foot.

Cost per square foot .....$ 25.

Premium Corner Perimeter (wall) Booth Space

(10′ × 15′ / 150 sf - 13.95 sm). May be purchased alone or in combination with any number of adjacent standard 10′ × 10′ perimeter booths.

Each .....$3,500.



Artist's conception of activity at Air/Space America, with several of the exhibition pavilions in background.

OUTDOOR EXHIBITS

Space

Space for free-standing exhibits (not aircraft). Minimum space per exhibit 200 square feet (18.6 sm).

Cost per square foot .....$12.

STATIC AIRCRAFT DISPLAYS

Your potential customers can inspect aircraft and other aerospace equipment at close range in the static display areas. Exhibitors who have aircraft on static display may also participate in flight-display activities at no additional charge, providing they have two aircraft of the same type—one for static display and one for flying display and/or customer demonstration flights.

Exhibitors are required to provide signage for static displays (specifications are detailed in "Exposition Regulations") as well as required security fencing, aircraft access ramps, stairways, and viewing platforms.

Aircraft empty weight	Per aircraft
Up to one ton	$ 350.
One ton to three tons	750.
Three to 10 tons	1,200.
10 tons to 25 tons	1,800.
25 tons to 40 tons	2,400.
40 tons to 60 tons	3,200.
Over 60 tons	4,000.

Sanitized Copy Approved for Release 2011/09/29 : CIA-RDP90M00005R000300130002-8

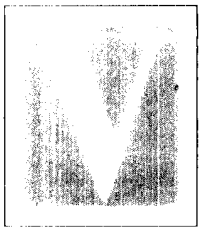
FLYING AIRCRAFT DISPLAYS AND CUSTOMER DEMONSTRATION FLIGHTS

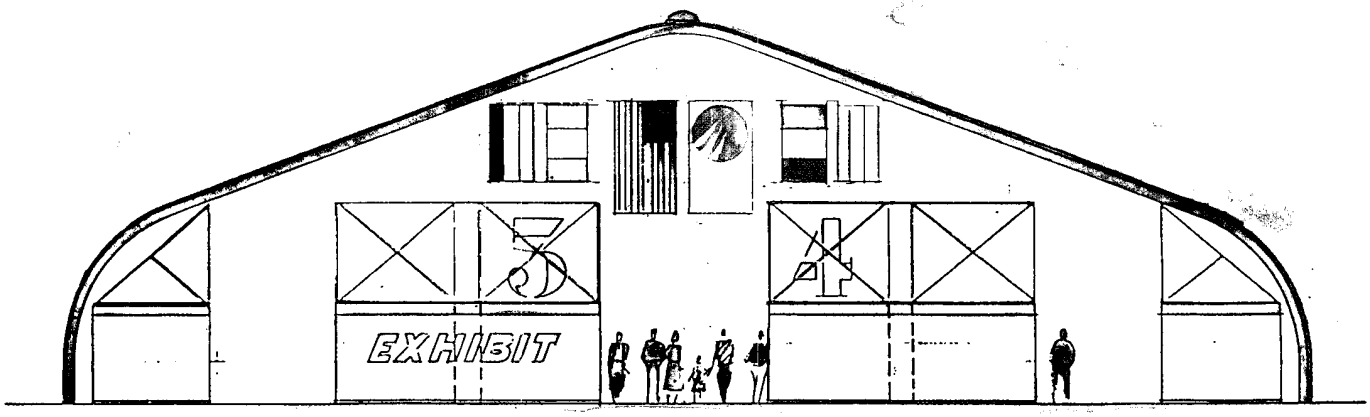


VARIOUS AIR SHOWS and flying aircraft displays will be staged on each of the weekend days of the exposition. Static display exhibitors may apply to Air/Space America for permission to show their aircraft in the flying display portion of the program. There will be no extra charge for this participation. Demonstration flights will be permitted only during the afternoons of the Monday-through-Friday Trade Days.

> Air/Space America will emphasize our nation's innovations in space and aviation while encouraging trade among our Pacific Rim friends and neighbors."
>
> **Governor George Deukmejian**

Rules and regulations regarding flying displays and customer demonstration flights are contained in "Exposition Regulations," copies of which will be mailed to all exhibitors.

The Director of Operations will process all applications to participate in the flying displays. Applicants will be notified promptly regarding approval of their requests. The Director's office will determine scheduling and duration of flight displays.



Cross section of the 100-foot wide, clearspan exhibition pavilions at Air/Space America.

INTERNATIONAL BUSINESS CENTER

Just inside the main entrance to the exhibit area at Air/Space America, visitors will find the International Business Center. This facility is designed to make the visits of foreign buyers more productive and enjoyable for them. Translators, guides, Air/Space America literature and maps, and special event schedules will be available here.

Sanitized Copy Approved for Release 2011/09/29 : CIA-RDP90M00005R000300130002-8

EXHIBITORS' RECEPTION CHALETS

Single or multiple reception chalets provide you with excellent accommodations where you may entertain customers and prospects. Each 1,200-square-foot unit has a seating capacity of from 58 to 65 persons. Each chalet will be equipped with a m ni-kitchen (oven, range, and refrigerator), and storage facilities. The north wall of each chalet has a sliding glass door to permit easy viewing of flight activities. The main entrance of each chalet faces south and has a 2' × 6' host identification sign. Each unit will have a flagpole to enable exhibitors to fly their corporate banners.

URNITURE, equipment, carpeting, and decorative materials (aside from those included in the basic unit) will be available. Each chalet has four 10-amp (110-volt) electric power outlets. Chalet decorations may be contracted for through the office of the Exposition Contractor, as listed in your "Exhibitor Kit," a copy of which will be mailed to exhibitors upon receipt of their space reservation(s).

Single Chalet Units
(Approximately 1,200 square feet / 111 square meters) . . . . . $22,500.

EXHIBIT SPACE APPLICATIONS and ALLOCATIONS

Applications to exhibit or to reserve chalets must be submitted on the standard application form with a 50% deposit for exhibit space(s) and/or chalet(s). The application form and deposit should be sent as soon as possible to:

Air/Space America
6110 Friars Road / Suite 204
San Diego, CA 92108-1004 USA

Applications received after March 15, 1988, will be accepted but only to the extent that exhibition space or chalets continue to be available.

Upon acceptance of their applications by Air/Space America, applicants will be mailed the "Exposition Information Package", an agreement form on which applicants will ackowledge their receipt and understanding of the regulations detailed in the "Exposition Information Package," and a space allocation. The signed agreement shall be returned and be accompanied by the balance due for the exhibit space(s) or chalet(s). Final payment for those who apply on or before March 15, 1988, must be received no later than April 15, 1988, or they will be considered a voluntary withdrawal and their deposits will be forfeited

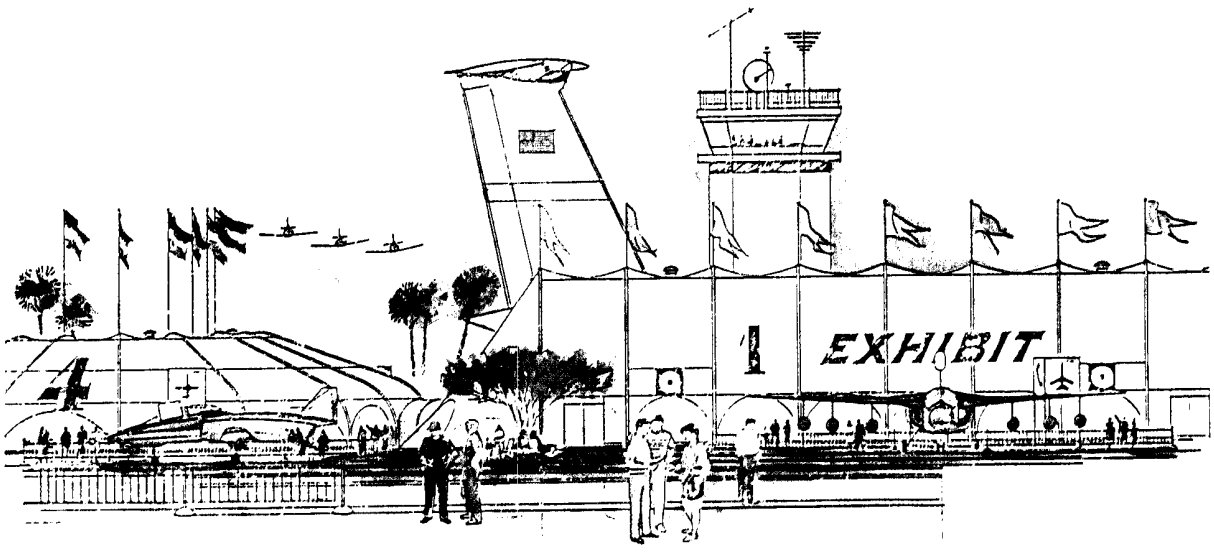
> Air/Space America fills a vital need right now. Plans to repeat it every two years make it even more important.."
>
> **Senator Alan Cranston**

SPACE ALLOCATIONS

Indoor and outdoor exhibit space will be allocated by Exposition management. Exhibit space is limited and will be allocated in the order in which applications are received. Insofar as possible, exhibitor's requests for special locations will be honored, providing that exhibit height and layout conform to general exhibit requirements for those locations.

CONFERENCES AND SEMINARS

Exhibitors wishing to sponsor conferences, seminars, or symposia are invited to contact the Exposition director, who will provide information about facilities at the exposition site as well as in the metropolitan San Diego area.



Areas for static display of aircraft are adjacent to the main exhibition pavilions.

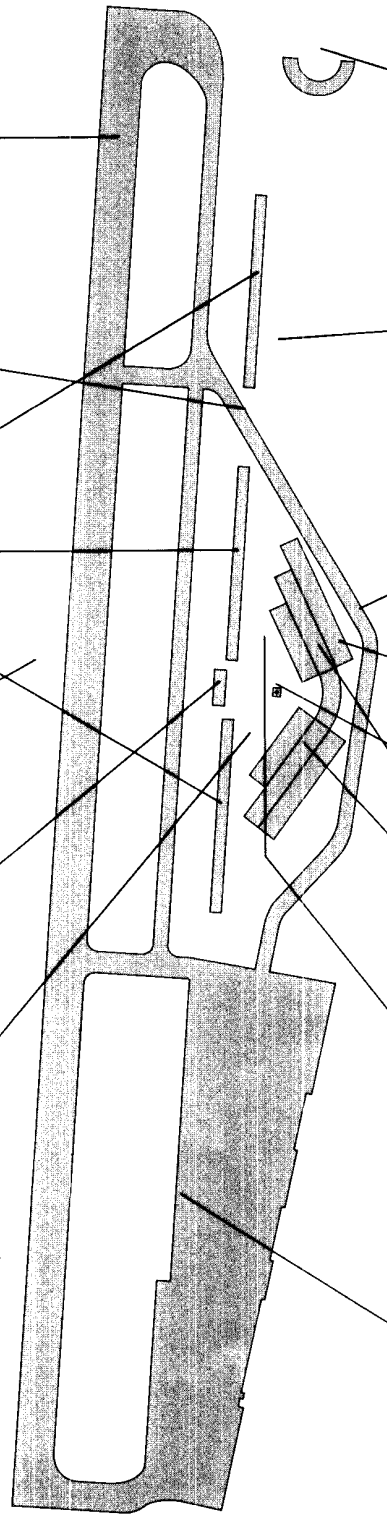
BROWN FIELD SITE PLAN



MAIN RUNWAY
Brown Field's 8,000-foot runway will be the focus of takeoffs and landings for demonstration and aerobatic flights.

FLIGHT LINE
Here you willl see the aircraft scheduled to take part in commercial and military flight demonstrations, air races, and air show activities.

EXHIBITORS' CHALETS
Domestic and foreign manufacturers and industry suppliers entertain guests in the attractive chalets that face the Air/Space America flight demonstration area.

CLOSED-COURSE AIR RACES
Top ranked international racing pilots will demonstrate their skills as they compete in their Formula One racers for trophies and cash awards.

FOUNDERS' CLUB
Headquarters for members of the Founders' Club, the organization of companies and individuals who are helping Air/Space America get underway.

GENERAL AVIATION
Aircraft manufacturers from over 20 nations will have their newest products on display in this area.

LIGHTER-THAN-AIR
Display site for an array of lighter than-air craft . . . from balloons to the most modern blimps.

MAIN ENTRANCE
Visitors will be greeted here by a colorful display honoring the pioneering aviation exploits of John J. Montgomery.

ANTIQUE AIRCRAFT
Static display of vintage domestic and foreign airplanes, including combat craft from World War-I and II.

MILITARY AIRCRAFT
The newest in combat and support aircraft will be on display in this area. Air Force, Navy, Marine, Coast Guard, and Army pilots will fly their latest craft.

PRESS HEADQUARTERS
Fully-equipped center for print and electronic news media.

BROWN FIELD TOWER
The control center for the flight activities during the nine days of Air/Space America. Safety is the hallmark of Air/Space America.

EXHIBIT PAVILIONS
Over 400,000 square feet of indoor exhibit space, where the world's leading aviation and aerospace manufacturers display their products.

MISSILES
Missiles and space systems too large to be displayed effectively in exhibit pavilions will be shown in this area.

GRANDSTANDS
The grandstand seating parallels the main runway and provides obstruction-free viewing of flight activities.
